Subject: Family Physician Positions in Moose Jaw

Following is an e-mail from Dr. Thorpe, Moose Jaw. They are looking for up to three full time family physicians for July. Could you please have this distributed to all family physicians graduating in your province and have them contact Dr. Thorpe directly if they are interested. Moose Jaw is a great city and very close to Regina.

Joan

Subject: Looking for physicians in Moose Jaw

Hello Joan

Thank you for taking my call.

I run a family practice here in Moose Jaw, in the Five Hills Health Region. It is a 7 doctor clinic, family practice and walk-in, with minor emergency, x-ray facilities, and lab facilities.

Currently we have 6 physicians working, but unfortunately, 2 of my anchor physicians are leaving as of July 1st, and I will need to replace them.

I am hoping that there may be one or two final year residents who may be interested in taking up an opportunity to practice here in Moose Jaw. I can accommodate up to 3 physicians as of July 1st.

There will be no up front contribution required other than registration with the CPSS and CMPA. The clinic operates on a 65:35 split. We work 8 hour days with a half day a week. No on-call is required, but ER shifts can be applied for if the physician wishes to do so. Maternity is not a

requirement, unless the physician so desires. We are open 7 days a week, and weekend shifts would occur on a rotation basis. We have a beautiful new clinic building, structurally designed around the patient and patient flow.

Moose Jaw is a friendly city and we have one of the most proactive Health Regions and CEOs in the province. Moose Jaw has all of the basic amenities of a city, but small town atmosphere. The physician body and medical staff in the region have excellent relationships, and would welcome any new doctor with open arms.

My Website is: http://www.mydoctor.ca/dr_brandon_thorpe

Please would you pass this information on. Anyone interested is free to contact me on my cell at 306-631-0426.

Yours faithfully

Brandon Thorpe MD
